

AUG 1 1988

Deborah G. Buniski, P.E., Director
Environmental Sciences Division
TetraTech Richardson, Inc.
P.O. Box 675
Newark, DE 19711-0675

Dear Ms. Buniski:

In response to your letter dated July 15, 1988, whereby you request permission to discharge pond water from the Harvey & Knott site to Long Branch, EPA approves this modification.

I understand that DNREC's Water Pollution Control Branch has requested clarification on some issues, which you will be responding to shortly. Although a permit from the State is not required, their approval should be obtained before proceeding.

Please let me know if any difficulties arise.

Sincerely,

Laura A. Boornazian, Chief
DELMARVA/DC/WW CERCLA
Remedial Enforcement Section (3HW16)
